PROFESSIONAL SUMMARY

I am a Python Developer with 1+ years of experience in software development and programming. My expertise lies in developing and deploying applications using Python, Flask, and other associated technologies. I have designed many custom applications for the clients with great success. My greatest achievement was building a web-based application that handled over 1 million transactions per day. My strengths are problem-solving, attention to detail and excellent communication skills which have enabled me to consistently deliver projects on time and within budget. Additionally, I possess strong analytical skills and can provide technical advice for the team.
